SIXTY SIX YEAR NO. 46

## Mira Mesa Business Plans Ahead

By Dawin Gutierrez

Every year on April 15 millions of people frantically scramble to finish their tax returns and get them to the mailbox by midnight. Sound familiar? If your answer is yes, don't worry, as there is light at the end of the tunnel! Your tax returns can be a simple snap of your fingers by using the service of Accountkeepers of San Diego.

Kathy Cazin, a Mira Mesa resident for over 20 years, is the owner of Accountkeepers of San Diego and would love to help make your life a whole lot easier. Cazin's expertise and personal consideration with each of her clients are proof of her dedication to the client's financial needs.

Accountkeepers of San Diego can quickly help you set up an accounting system that is custom

tailored to your needs and she guarantees it will work for you. The company specializes in setting up home and business financial records so you can keep track of where your money is being spent. Whether you're starting from scratch or upgrading your current accounting systems, Accountkeepers can help with advice on software, set up of systems, and by training you to take control of your finances.

"Our instructions are explained at a level that's easily understood by everyone, beginners to advanced. Soon a "word person" can feel as comfortable and organized as someone who's always been a "numbers person." Cazin says.

Cazin, who has over 20 years experience in finance, opened her own business in Mira Mesa 10 years ago. As a computer accountant, Cazin offers experience working with the latest computerized accounting software. She has extensive knowledge of the latest versions of Peachtree, Quicken, Quickbooks, and Quickbooks Pro.

Cazin, who also volunteers her expertise by donating time to various civic organizations in the community, says that being organized really pays off. "Knowing your cash balance on a daily basis with monthly bank

reconciliations makes life easier," Cazin says. "Our company allows you to get a good look at where your money is really going."

Whether it is for your home or office, Accountkeepers of San Diego offers competitive pricing and is available to answer immediate questions through phone sessions. The staff will offer tax saving tips you need to be aware of throughout the year. If you own your own business, Cazin's expertise can help you identify clients who are not paying in a timely manner and help increase your productivity by streamlining your processing of paper work. Understanding the growth of your business with monthly profit & loss statements, balance sheets and general ledgers is extremely important for a thriving business.

"Accountkeepers takes the frustration out of bookkeeping. They're reliable, dependable, and affordable. Now, I'm spending more time servicing my clients rather than spending it on books," says Dave Dhillon of Take Note Production.

Next year, when April 15 rolls around, wouldn't you like to have your refund check already in your hands? Just call Accountkeepers of San Diego today for a free consultation (858)566-1501.
